Ask about volume discounts, special inter-office rates, and reduced prices for pre-scheduled work.

Note that there are additional charges for excessive weight, added valuation, waiting time, oversized packages, etc. There is also a gas surcharge passed along in full to your drivers to help offset the growing price of gasoline.

The gas surcharge is a percentage of the cost of the job. For All Day and Special work it is 20% of the job charge, for Rush (3 hour) jobs it is 15%, and for Exclusive jobs it is 10% of the job charge. Using this structure, the gas surcharge is commensurate to the distance the driver needs to travel. Prices and conditions are subject to change without notice.
