"We have been using Quick One Messenger for over 5 years in both of our Manhattan boutiques. Quick One Messenger offers competitive pricing and very efficient, responsible and timely service. The company is run by professional individuals who are service oriented."

"Quick One Messenger has been operating the message center in one of the Reckson buildings in midtown Manhattan for several years. Their personnel are consistently professional and friendly. The operation is streamlined and cost-effective, but fully gets the job done to complete tenant satisfaction. To date, there has been lots of positive feedback. This amenity increases the desirability of our premises for prospective and existing tenants and is what any property manager would want. Kudos to Quick One Messenger!"

"Quick One Messenger has been servicing our company for years in the volume of hundreds of packages per week. We have several separate accounts set up with them in order to manage all of our properties individually and keep financial records straight. Quick One Messenger has been extremely service oriented and professional in the handling of our business and has been a wonderful service to have. We can always count on fast and reliable handling of our packages, which makes us able to do our own work and not worry about our communications being handled. I would recommend them to anyone."
